

THRESHOLD RAMPS & EASY STEPS

Where access is restricted by door threshold or kerb stones and small steps, our range offers a quick and simple solution.

By cutting to different depths and trimming the profile cutting a perfect fit can be achieved.

• Folding threshold ramps

There is often the need to bridge a door threshold when wheelchair tyres might damage door running gear. The folding threshold ramp overcomes this problem with ease. Adjustable leg heights and various ramp length options accommodate a variety of doorway access problems. The ramp, when not in use, folds neatly for storage.
